

TO OUR CUSTOMERS

The business of Lasscock's Nurseries, founded in 1906 by E. A. Lasscock, at Lockleys (South Australia), has been re-organized, and it is now carried on solely under the management of the Lasscock family.

The experience gained over a period of 33 years in catering for the requirements of customers enables us with confidence to assure them that the reputation for quality in the plants, trees, and seeds supplied, and the promptness of the service rendered, will be maintained.

In sending out this new catalogue, we call attention to the fact that the large stocks of trees, shrubs, and plants which we offer are clean, healthy, reliable, and up-to-date.

"Back numbers" in roses and other lines have been eliminated, and only the very best and the latest proved varieties are offered. The seeds which we packet and sell at popular prices are from fresh stocks selected from the world's best strains, and our Seedling Department supplies sturdy healthy plants of seasonable sorts that can be relied upon to give the very best results.

Our large stocks of all nursery lines include the main and most desirable varieties in Roses, Ornamental Trees, Shrubs, Climbers, Ornamental Plants, and Ferns. In the fruit section sturdy healthy trees of Oranges, Lemons, stone fruits, Apples, Pears, Almonds, etc., are sent out to give satisfaction to both the commercial grower and the home gardener alike.

"Lasscocks for Quality" can still be relied upon.

We tender our grateful thanks to the numerous customers and friends who have supported us during recent years, and we assure them and all who may entrust us with their orders, that nothing on our part will be wanting to inspire confidence and retain their goodwill, which we so much appreciate.

TERMS OF BUSINESS

Orders.—To facilitate speedy delivery, Customers are requested to write their Orders on a separate sheet of paper, stating their name and address. This Order should be quite separate from any letter sent with an order.

Orders can be booked at any time for forward delivery at the proper season for planting. Our best attention and prompt dispatch can be depended upon.

Selection of Varieties.—When special varieties, such as Roses, are ordered, we would appreciate a list giving a second choice. This is desirable, unless the choice of varieties is left to us.

Packing.—Every attention is given to careful packing, so that no damage may be done in transit. A charge is made only for the actual cost of cases and packing material used.

Remittance is requested with Orders from unknown Customers, or a satisfactory Adelaide reference should be given.

Payment may be made by crossed cheque, postal note, or post office order, made payable to Lasscock's Nurseries, Adelaide, South Australia. Small amounts may be remitted in penny or twopenny stamps.

Conditions of Sale and Liability.—As customary in the trade, we wish it to be understood that great care is taken to supply everything true to name and of good quality, but without guarantee or warranty, expressed or implied, as to description, quality, productiveness, or any other matter connected with the goods we send out, and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they must be returned at once, carriage paid.

Complaints.—These must be made within fourteen days of receipt of goods, otherwise they cannot be entertained.

LASSCOCK'S NURSERIES.

If it is not catalogued, we will endeavour to procure it
for you.**

GARDEN CALENDAR

JANUARY

Flowers—Sow Balsam, Cosmos, Variegated Rainbow Maize, Portulacca, Phlox, Mignonette, Zinnia, Sweet Peas (a few for early flowering).

Sow in Seed Beds or Boxes—Amaranthus, Anemone, Antirrhinum, Carnation, Dianthus, Iceland Poppy, Nemesis, Pansy, Stocks (winter flowering), Tree Marigold, Salpiglossis, Violas, Ranunculus.

Sow in Seed Beds under Glass—Begonia, Cineraria, Cyclamen, Gloxinia, Primula (Malacoides and others).

Vegetables—Sow Broccoli, Brussels Sprouts, Carrots, Cabbage, Cauliflower, Celery, French Beans, Red Beet, Silver Beet, Scotch Kale, Spinach, Radish, Lettuce, and Onions (for salad making), Sweet Corn.

Plant out a few Potatoes for an autumn crop, Early Cabbage, Sweet Potatoes, Tomatoes (late varieties), Melon, Trombone, Cucumber (for late crop).

FEBRUARY

Flowers—Sow Ageratum, Anemone, Antirrhinum, Aquilegia, Balsam, Carnation, Calliopsis, Candytuft, Canterbury Bells, Cornflower, Delphinium, Dianthus, Geum, Foxglove, Gerbera, Heuchera, Iceland Poppy, Larkspur, Lobelia, Lupins, Mimulus, Nemesis, Polyanthus, Pansies, Ranunculus, Schizanthus, Stocks, Verbena, Viola, Wallflower, Winter Flowering Marigold.

Sow in Open Ground where the Plants are to Flower—Balsams, Calliopsis, Centaurea, Iceland Poppy, Phlox, Lupins, Sweet Peas, Mignonette.

Sow in Pans or Boxes for Glasshouse Purposes—Calceolaria, Cyclamen. Primula Malacoides and Cineraria seed may also be sown now for growing in the Open Flower Beds.

Bulbs—Plant Gladioli Corms (both large flowering and Primulus Hybrids) also Ranunculus, Anemones, and Watsonias for early flowering. Prepare the ground for general Bulb planting in March.

Vegetables—Sow in Seed Beds or Boxes—Cabbage (Early varieties) Cauli-

flower, Brussels Sprouts, Celery, Red Beet, Silver Beet, and Scotch Kale. Sow also Early Peas, Carrots, and Potatoes.

MARCH

Flowers—Sow Alyssum, Antirrhinum, Aquilegia, Bellis Perennis (English Double Daisy), Calliopsis, Candytuft, Canterbury Bells, Carnations, Centaurea, Cornflower, Chrysanthemum, Clarkia, Dianthus, Delphinium, Eschscholtzia, Forget-me-not, Foxglove, Freesia, Gaillardia, Geum, Gerbera, Godetia, Gypsophila, Helichrysum (Everlastings), Hollyhock, Larkspur, Leptosyne, Linaria, Lobelia, Lupins, Marigold, Mimulus, Nasturtium, Nemesis, Nigella, Nemophila, Pansy, Pentstemon, Polyanthus, Poppy (Iceland and Shirley), Primrose, Pyrethrum, Rhodanthe, Scabious, Schizanthus, Sweet William, Stocks, Verbena, Violet, Viola, Wallflowers.

Where Plants are to Flower—Sow Hunnemannia, Nemesis, Nasturtium, Mignonette, Phlox, Sweet Peas.

In Seed Pans or Boxes under Glass for Glasshouse purposes sow Calceolaria, Cineraria, Cyclamen, Primula (Malacoides and others).

Seedlings—Plant all varieties of Hardy Annuals, etc., for early flowering. See seed list for February and March for varieties.

Vegetables—Sow Broad Beans, Cabbage, Carrot, Cauliflower, Cress, Herbs, Leek, Lettuce, Mustard, Onions, Peas, Radish, Spinach, Turnip.

Plant Beet, Cabbage, Cauliflower, Garlic, Lettuce, Shallots, Tree Onions.

APRIL

Flowers—Sow Aquilegia, Anemone, Antirrhinum, Calendula (Marigold), Calliopsis, Canterbury Bells, Candytuft, Carnation, Centaurea, Chrysanthemum (annual), Clarkia, Cornflower, Daisy (Bellis Perennis Monstrosa), Delphinium, Dimorphotheca (African Daisy), Eschscholtzia (Californian Poppy), Forget-me-not, Gaillardia, Godetia, Gerbera, Gladiolus, Gypsophila, Hollyhock, Jacobea, Leptosyne, Larkspur, Lobelia, Lin-

aria, Lupins, Mimulus, Nemesis, Nemophila, Pansy, Poppy (Shirley and Iceland), Pyrethrum Aureum ("Golden Feather") for edging, and Hybrid Grandiflora, Phlox, Polyanthus, Pentstemon, Primrose, Ranunculus, Stock, Scabious, Sweet William, Schizanthus, Violet, Viola, Verbena, Vinca, Wallflower (Early Paris).

Sow where Plants are to Flower—Hunemannia, Lupins, Mignonette (Machet), Nemesis, Nasturtium, Sweet Peas, and Virginian Stocks.

Bulbs—Plant Daffodils, Narcissus, Tulips, Hyacinths, Ixias, Freesias, Sparaxis, Babianas, Ranunculus, Anemone, Gladioli, Watsonia.

Seedlings—Continue to plant hardy varieties (as advised last month).

Vegetables—Sow Broad Beans, Brussels Sprouts, Cabbage, Carrot, Cauliflower, Cress, Herbs, Leek, Lettuce, Mustard, Onion, Peas, Radish, Spinach, Turnip, Kohl Rabi.

Plant Beet, Cabbage, Cauliflower, Garlic, Lettuce, Shallots, Tree Onions.

MAY

Flowers—Sow in Seed Beds or Boxes: Aquilegia, Anemone, Antirrhinum, Calendula (Marigold), Calliopsis, Canterbury Bells, Candytuft, Carnation, Centaurea, Chrysanthemum (Annual), Clarkia, Cornflower, Daisy (Bellis Perennis Monstrosa), Delphinium, Dimorphotheca (African Daisy), Eschscholtzia (California Poppy), Forget-me-not, Gaillardia, Godetia, Gerbera, Gladiolus, Gypsophila, Hollyhock, Jacobea, Leptosyne, Larkspur, Lobelia, Linaria, Lupins, Mimulus, Nemesis, Nemophila, Pansy, Poppy (Shirley and Iceland), Pyrethrum Aureum (Golden Feather) for edging, and Hybrid Grandiflora, Phlox Polyanthus, Pentstemon, Primrose, Stock, Sweet William, Violet, Viola, Verbena, Vinca, Wallflower (Early Paris).

Where Plants are to Flower—Sow Hunemannia, Mignonette (Machet), Nasturtium (Dwarf, Tom Thumb), Sweet Pea, and Virginian Stock (for edging).

Seedlings—Plant all Hardy varieties.

Bulbs—Plant Daffodils, Narcissus, Tulips, Hyacinths, Ixias, Morphia,

Freesia, Sparaxis, Babianas, Ranunculus, Anemone, Gladioli, Watsonias.

Plant Shrubs, Climbers, Roses, and Hedge plants; Oranges, Lemons, and all Citrus Fruits.

Vegetables—Sow Broad Beans, Brussels Sprouts, Cabbage, Carrot, Cauliflower, Cress, Herbs, Leek, Lettuce, Mustard, Onions, Peas, Radish, Spinach, Turnip, Kohl Rabi, Endive, Silver Beet, Red Beet. Sow Tomato Seed on heat for early fruiting under Glass. Plant Strawberries, Rhubarb, and Herbs. Plant Beet, Cabbage, Cauliflower, Garlic, Lettuce, Shallots, Tree Onions.

JUNE

Flowers—Sow in Sheltered Seed Beds or Boxes (in a sunny position): Antirrhinum, Calendula (Marigold), Canterbury Bells, Candytuft, Carnation, Chrysanthemum (Annual), Clarkia, Cornflower, Daisy (Bellis Perennis Monstrosa), Forget-me-not, Gaillardia, Godetia, Hollyhock, Leptosyne, Lobelia, Linaria, Lupins, Nemophila, Pansy, Poppy (Shirley and Iceland), Pyrethrum Aureum (Golden Feather) for edging, and Hybrid Grandiflora, Polyanthus, Pentstemon, Primrose, Stock, Sweet William, Violet, Viola, Vinca, Wallflower (Early Paris).

Where Plants are to Flower—Sow Mignonette (Machet), Nasturtium, Sweet Peas, and Virginian Stock (for edging), Eschscholtzia. Sow also Seeds for Winter Lawn Grasses.

Bulbs—Plant Gladioli, Flag Iris, Montbretia, and Agapanthus.

Plant also Roses, Shrubs, Climbers, and Hedge Plants.

Vegetables—Sow Broad Beans, Cabbage, Carrot, Cauliflower, Cress, Herbs, Leek, Lettuce, Mustard, Onion, Peas, Radish, Turnip, Kohl Rabi, Endive, Silver Beet, Red Beet. Sow Tomato Seed on Heat for early fruiting under Glass.

Plant Beet, Asparagus, Cabbage, Cauliflower, Lettuce, Leeks, Onions, Garlic Shallots, Potatoes, Horse Radish, Herbs, Kale, Rhubarb.

Strawberries—Plant in prepared beds.

Fruit Trees—Plant all leaf shedding varieties, including Almonds, and Berry Fruits.

Address all Correspondence to Lockleys, S.A.

JULY

Flowers—Sow in Beds or Boxes sheltered from cold winds and frosts. Cover the boxes with Glass, and place in sunniest positions: Antirrhinum, Calliopsis, Carnation, Candytuft, Cornflower, Chrysanthemum (Annual), Dianthus, Eschscholtzia, Gaillardia, Larkspur, Marigold, Lobelia, Linaria, Poppies, Sweet William, Wallflower.

Where Plants are to Flower—Sow Mignonette, Nasturtium, Sweet Peas, Virginian Stock (for edging).

Bulbs—Plant Agapanthus, Gladioli, Anemone, Japonica, Flag Iris, Crinums, Montbretia, Tuberose, Hippeastrums.

Plant Roses, Trees, Shrubs, and Climbers, also Fruit Trees (all varieties), Vines, and Almonds; also Delphiniums, Perennial Phlox, Perennial Aster, Polyanthus, Primrose, Rudbeckia, Geum, Canterbury Bells, Antirrhinums, Violets, Aquilegia, Shasta Daisy, Pelargoniums, Primula Malacoides, Pansies, Violas.

Vegetables—Sow Broad Beans, Beetroot, Cabbage (early sorts), Carrots, Cauliflower, Cress, Herbs, Leeks, Lettuce, Mustard, Onions, Parsley, Parsnip, Peas (early sorts), Radish, Spinach (prickly), Tomatoes (under glass), Turnips, Kohl Rabi, Endive, Silver Beet (Giant Lucullus).

Plant Cabbage, Asparagus, Cauliflower, Leeks, Lettuce, Rhubarb, Garlic, Herbs, Jerusalem Artichokes, Horse Radish, Potatoes; plant out Trombones in Glass structures.

AUGUST

Flowers—Sow in Sheltered Seed Beds or Boxes: Antirrhinums, Calliopsis, Candytuft, Carnation, Chrysanthemum, Cornflower, Delphinium, Dianthus, Eschscholtzia, Gaillardia, Gypsophila, Helichrysum (Everlasting), Lobelia, Lupins, Petunia, Phlox, Poppy, Portulacca, Rhodanthe, Scabious, Salpiglossis. Half Hardy Annuals, etc., for early planting, may be sown under glass, such as Amaranthus, Asters, Balsams, Celosia, Cockscorn, Coreopsis, Dahlias, Gerbera, Heuchera, Sunflower, Salvia, Zinnia, Elegans.

Where Plants are to Flower—Sow Mignonette, Hunnemannia, Nasturtium.

Bulbs—Plant Agapanthus, Anemone, Cannas, Gladioli, Tuberose.

Plant Roses, Trees, Shrubs, Climbers, and Hedge Plants. Also Delphiniums and other Herbaceous Perennials.

Vegetables—Sow in sheltered situations: Beet, Broccoli, Cabbage, Carrot, Endive, Herbs, Leek, Lettuce, Mustard and Cress, Onions, Peas, Parsnips, Parsley, Radish, Spinach, Turnip. Also in Sheltered Beds or frames—Cucumber, Celery, Tomato, Marrows, Melons, etc.

Plant Asparagus Roots, Artichokes, Beet, Herbs, Mint, Potatoes, Rhubarb, Roots, Lettuce, Cabbage.

Fruit Trees—Plant all varieties; also Strawberries.

SEPTEMBER

Flowers—Sow in Boxes or in Sheltered Seed Beds—Ageratum, Amaranthus, African and French Marigold, Antirrhinum, Asters, Aquilegia, Balsam, Calliopsis, Celosia, Centaurea Imperialis, Cockscorn, Dahlia, Delphinium, Dianthus, Dimorphotheca, Eschscholtzia, Heuchera, Ipomea (Cardinalis and Heavenly Blue), Lupins, Mina Lobata, Petunia, Pentstemon, Phlox, Portulacca, Salvia, Salpiglossis, Scabious, Sunflowers, Verbena, Zinnia.

Sow where Plants are to Flower—Phlox Drummondii, Mignonette, Hunnemannia, Salpiglossis.

For Glasshouse—Sow (in boxes) Begonia (Semperflorens and Tuberous-rooted), Coleus, Gerbera, Gloxinias, Petunia (Superbissima and Double Fringed, and Bedding varieties).

Bulbs—Plant Agapanthus, Cannas, Gladiolus, Hippeastrums, Tuberose. Also plant Hibiscus and Bougainvillea and Ornamental Trees and Shrubs.

Seedlings—Plant varieties as given in the seed list. Also plant Shrubs of all kinds, and Hedge plants.

Vegetables—Sow French Beans (from the middle of this month and onwards), Beet (all varieties, including Spinach Beet), Cabbage, Cape Gooseberry, Capsicum, Carrot, Celery, Cucumber, Egg Plant, Herbs, Leek, Lettuce, Melons, Mustard and Cress, Onions (for salads), Parsley, Parsnip, Peas (early varieties), Pumpkin, Radish, Sweet Corn, Tomato, Turnips.

Plant Potatoes, Jerusalem Artichoke, Sweet Potatoes (from rooted cuttings).

OCTOBER

Flowers—Sow in Seed Beds or Boxes covered with Glass—Amaranthus, Antirrhinum, Asters, Aquilegia, Balsams, Calliopsis, Centaurea, Celosia, Cockscorn, Cosmos, Dahlia, Delphinium, Dimorphotheca, Dianthus, Gaillardia, Globe Amaranthus, Gypsophila, Marigold (African and French), Mina Lobata, Nasturtium, Pentstemon, Petunia, Phlox, Portulacca, Salpiglossis, Salvia, Sun-Flower, Scabious, Wallflower, Zinnia.

Where Plants are to Flower—Sow Mignonette, Hunnemannia, Phlox, Balsam, Salpiglossis.

Bulbs—Plant Agapanthus, Cannas, Gladioli, Tuberose.

Plant Seedlings of varieties mentioned in seed list, also Cannas, Chrysanthemums, Delphiniums, Perennial Phlox, Asters, and other Herbaceous Perennials. Plant Hibiscus and Bougainvilleas; also Buffalo and Couch Grass.

Vegetables—Sow French Beans (when the weather warms), Beets (all varieties), Cabbage, Celery, Cape Gooseberry, Carrot, Cucumber, Gherkins, Egg Fruit, Lettuce, Sweet Melon, Rock Melon, Water Melon, Pie Melon, Pumpkin, Trombone, Onions (for salad), Parsley, Parsnip, Peas, Radish, Sweet Corn, Tomato, Turnips.

Plant Asparagus, Beet, Herbs, Mint, Potatoes, Rhubarb, Lettuce, Early Cabbages, Tomatoes.

NOVEMBER

Flowers—Sow in Seed Beds or Boxes—Ageratum, Amaranthus, Antirrhinum, Aquilegia, Asters, Balsam, Calendula, Calliopsis, Carnation, Celosia, Centaurea, Cockscorn, Cosmos, Dahlia, Delphinium, Dianthus, Digitalis (Foxglove), Gaillardia, Gerbera (cover with glass whitened on one side), Globe Amaranthus, Heuchera, Kochia, Lupins, Ipomea (Cardinalis and Heavenly Blue), Marigold (French and African), Mina Lobata, Petunias, Phlox Drummondii, Portulacca,

Salpiglossis, Salvia, Scabious, Sunflowers, Verbena, Vinca, Wellflower, Zinnia.

Where Plants are to Flower—Sow Mignonette, Hunnemannia, Salpiglossis, Phlox Drummondii, Zinnia.

Plant Chrysanthemums, Cannas, Bouvardia, Bougainvillea, Dahlias, Hibiscus, Mina Lobata, Delphiniums, Perennial Asters; also all Seedlings of Half Hardy Summer Flowering Annuals. Buffalo and Couch Grass, Cuttings and Roots; also sow Couch Seed.

Vegetables—Sow Beans (Dwarf French, Climbing French, and Lima Beans), Beetroot, Cabbage, Capsicum, Carrot, Cape Gooseberry, Celery, Cress, Cucumber, Egg Plant, Lettuce, Mustard, Melons, Onions, Pumpkin, Parsnip, Radish, Rhubarb, Spinach, Sweet Corn, Tomatoes, Trombone, Turnip, Vegetable Marrows.

Plant Sweet Potatoes; also Passion Fruit Vines.

DECEMBER

Flowers—Sow where Plants are to Flower—Asters, Balsam, Cosmos, Celosia, Phlox, Portulacca, Sunflower, Zinnia. In Seed Beds or Boxes—Antirrhinum, Delphinium, Petunias, Dianthus, Salvia, French and African Marigold, Ranunculus, Anemone, Pansies, Violas, Zinnias. Under Glass—Sow Begonia, Calceolaria, Cineraria, Cyclamen, Primula Malacoides and other Primula varieties.

Plant — Bougainvillea, Dahlias, Iresine, Alternantheras, Lantanas, Tecomas, Flowering Gums; also Petunias and other Summer and Autumn Flowering Annuals.

Vegetables—Sow Celery for early planting, Cucumber, Melon, Marrow, Trombone, Pumpkin, Cress, Mustard, French and Runner Beans, Radish, Lettuce, Silver Beet, Sweet Corn, Leek, Cabbage and Cauliflower for early planting. Plant Potatoes.

Our Roses are Noted for Their Beauty.

ROSES

We make a speciality of Roses, our soil and locality being favourable to the production of strong, healthy plants with good root system.

Our Roses are ready for sending out from the middle of May.

Orders can be booked at any time for dispatch as required.

A GENERAL LIST OF SELECTED VARIETIES.

Standards and Half-standards, 2/6 each; 27/6 per dozen.

Climbing Roses, 1/3 each; 12/- per dozen, except where priced.

Dwarf Roses, 1/3 each; 12/- per dozen.

N.B.—Nothing less than half dozen supplied at dozen rates.

BRIEF DESCRIPTION OF VARIETIES.

Abbreviations:

H.T., Hybrid Tea Rose.

T., Tea-scented Rose.

H.P., Hybrid Perpetual.

Per., Pernetiana.

Angele Pernet (Per.).—Vivid orange yellow, shaded fiery red, deep red apricot, outside petals golden yellow.

Antoine Revoire (H.T.).—Rosy flesh.

Autumn (H.T.).—Burnt orange streaked with red. Very decorative.

Belle Siebrecht (H.T.).—Bright rose pink. One of the best pink roses.

Betty Uprichard (H.T.).—Inside of petals salmon pink to carmine; reverse glowing carmine, with copper sheen, suffused with orange.

Caledonia (H.T.).—Pure white, splendid form.

Carine (H.T.).—Orange carmine to buff and creamy salmon.

Catherine Kordes (H.T.).—Rich scarlet with crimson shades; buds long and pointed, splendid shapes.

Charles P. Kilham (H.T.).—Brilliant orange, orient red, suffused with glowing scarlet.

Chateau de Clos Vougeot (H.T.).—Velvety scarlet, shaded crimson. The climbing sport does better.

Clarice Goodacre (H.T.).—Chrome, shaded white.

Columbia (H.T.).—Delightful shade of rose pink; fragrant.

Countess of Gosford (H.T.).—Salmon-pink; base of petals suffused yellow.

Crimson Glory (H.T.).—Deep vivid crimson, furnished with a soft, velvety nap. It is a splendid grower, producing quantities of flowers of good quality. Very sweet, strong fragrance. The best general purpose red rose introduced for many years.

Cuba (H.T.).—Carmine crimson to orange scarlet.

Daily Mail Scented (H.T.).—Rich deep crimson; extra good.

Dame Edith Helen (H.T.).—A delightful glowing pink rose, good form, large, full, and fragrant.

Edward Mawley (H.T.).—Deep rich velvety crimson.

E. G. Hill (H.T.).—Dazzling scarlet; large, well-shaped flowers.

Emma Wright (H.T.).—Pure orange; a most attractive bedding rose.

Ethel Somerset (H.T.).—Shrimp pink, edge of petals deep flesh coral pink.

Etoile de Hollande (H.T.).—Brilliant deep red, very sweetly scented.

Felicity (H.T.).—Pink, shading to cerise.

Fontanelle (H.T.).—A large yellow rose, with immense petals and beautifully formed flowers. A splendid variety.

Frau Karl Druschki (H.P.), (Snow Queen).—Snowy white.

Gaiety (H.T.).—Orange and vermilion, changing to old rose.

General Macarthur (H.T.).—Rich crimson, shaded scarlet.

Georges Schwartz (T.).—Bright deep canary yellow.

Golden Emblem (H.T.).—Rich golden yellow; fine glossy foliage.

Golden Dawn (H.T.).—Buds rich sunflower yellow, flushed deep old rose; open flower sunflower yellow, toning with age at edges to lemon. Fine for garden and exhibition.

Golden Gleam (H.T.).—Colour is bright buttercup yellow, without shading. Outer petals are flushed and streaked scarlet, on the same lines as Golden Emblem. Very free flowering, and good garden rose.

Golden Ophelia (H.T.).—Golden yellow centre, paling at outer edge.

Hadley (H.T.).—Deep rich velvety crimson, shaded magenta.

Hawlmarm Crimson (H.T.).—Intense crimson, veined maroon.

Hoosier Beauty (H.T.).—Glorious crimson scarlet; delicious perfume.

Hugo Roller (H.T.).—Rich lemon yellow; petals edged and suffused crimson.

Imperial Potentate (H.T.).—Large flowers, with high centre; lasts well; long stems; very fragrant. Colour, dark rose pink.

Isobel (H.T.).—A single rose. Coppery red; centre pure yellow.

John C. M. Mensing (H.T.).—Sport from Ophelia. Deep bright rose.

Joseph Hill (H.T.).—Salmon pink, shaded yellow; outside petals coppery pink.

Kaiserin Augusta Victoria (H.T.).—Cream, slightly shaded lemon.

K. of K. (H.T.).—Semi-double; intense scarlet.

Lady Helen Maglona (H.T.).—Buds and young blooms bright crimson red, with black markings; lightens to scarlet red.

Lady Hillingdon (H.T.).—Orange yellow, long buds.

Lady Margaret Stewart (H.T.).—Opening flower deep sunflower yellow, heavily splashed and veined with orange scarlet; reverse of petals marked deep crimson; full flower cadmium orange.

La France (H.T.).—Beautiful silvery rose, sweetly scented.

Thoroughly Prepare your Soil before Planting.

- Laurent Carl (H.T.).—Brilliant velvety carmine.
- Lorraine Lee.—Excellent garden rose, blooming right into winter; colour, warm rosy apricot pink, flushed with salmon; sweet perfume.
- Lord Charlemont (H.T.).—A perfectly shaped clear crimson rose, deepening to carmine crimson.
- Los Angeles (H.T.).—Luminous pink, shaded at base with gold; perfumed.
- Mabel Morse (H.T.).—Large, well-formed, clear bright yellow.
- Madame Abel Chatenay (H.T.).—Carmine pink, shaded vermilion and salmon.
- Madame Butterfly (H.T.).—A blending of bright pink, apricot, and gold.
- Madame Edouard Herriot (H.T.).—Coral red, shaded with yellow and bright rosy scarlet, passing to prawn red.
- Madame J. Bouche (H.T.).—Salmon white; centre shaded rose.
- Madame Jules Grolez (H.T.).—Satiny china rose; always in bloom.
- Madame Segond Weber (H.T.).—Large, full, salmon pink.
- Maman Cochet (T.).—Flesh, shaded carmine and salmon yellow.
- Margaret Dickson Hammill (H.T.).—Straw colour, edged and flushed with pale carmine on back of petals.
- Margaret McGredy (H.T.).—Orange scarlet; good foliage.
- Mary Hart (H.T.).—A red sport from Talisman. The bud is maroon-red, opening to well formed fragrant blooms of velvety red, free flowering.
- McGredy's Scarlet (H.T.).—Brilliant rich velvety scarlet.
- McGredy's Triumph (H.T.).—Geranium red, flushed orange, deepening to rich orange at base. The flowers are very large, perfect form. Delicate rose scent, free flowering, splendid habit of growth.
- Mevrow G. A. Van Rossen (H.T.).—Shaded flame and orange on a dark golden yellow ground.
- Molly Sharman Crawford (T.).—A free-flowering pure white.
- Mrs. Aaron Ward (H.T.).—Indian yellow, large and full.
- Mrs. A. R. Barraclough (H.T.).—Crimson pink with yellow base.
- Mrs. Bryce Allen (H.T.).—Solid matte carmine rose, highly perfumed.
- Mrs. David McKee (H.T.).—Creamy yellow, large and full.
- Mrs. Dunlop Best.—Reddish apricot; base coppery yellow; perfumed.
- Mrs. George Shawyer (H.T.).—Clear rose pink, large and full.
- Mrs. H. R. Darlington (H.T.).—Creamy yellow, good form; sweetly perfumed.
- Mrs. H. Stevens (T.).—A free-blooming rose of merit. White.
- Mrs. Henry Winnet (H.T.).—Beautiful red rose.
- Mrs. Sam McGredy (H.T.).—Coppery apricot to Lincoln red to old gold and salmon.
- Ophelia (H.T.).—Salmon flesh, apricot form; sweetly scented.
- President Herbert Hoover (H.T.).—Beautifully-formed flowers of cerise, bronze, and yellow.
- Radiance (H.T.).—Brilliant carmine.
- Rapture (H.T.).—Sport of Madame Butterfly; somewhat deeper pink.
- Red Letter Day (H.T.).—Semi-double, brilliant, and velvety scarlet crimson buds.
- Red Radiance (H.T.).—Brilliant cerise red. A sport from Radiance.
- Rev. R. Page Roberts (H.T.).—Beautiful rich yellow like "Marechal Neil", with buff markings on reverse of Petal.
- Rose Marie (H.T.).—Rose pink; long, perfect buds and full flowers.
- Sensation (H.T.).—Scarlet crimson, maroon markings, large double; buds large and long-pointed.
- Severine (H.T.).—Bright cherry cerise, overlaid with salmon.
- Shot Silk (H.T.).—Orange, flushed rose; clear yellow base; superb.
- Sou. de H. A. Verschuren (H.T.).—Cadmium yellow to deep yellow on opening; large and full.
- Scouvenir de Stella Gray (T.).—Deep orange, with splashes of apricot, salmon, and carmine.
- Sunburst (H.T.).—Orange yellow, deeper centre; fine long-pointed buds.
- Sunny South (H.T.).—Pink, flushed carmine, on yellow base.
- Sunstar (H.T.).—Deep orange and yellow edge, veined and splashed crimson and vermilion.
- Talisman (H.T.).—A very fine and attractive rose. Colour: scarlet, pink, copper, and gold are all to be found in the glorious shadings. The most outstanding variety introduced for some years.

The Bride (T.).—White, tinged with rose; a good garden rose.

The Queen Alexandra (H.T.).—Vermillion shaded old gold.

White Ensign (H.T.).—Colour white, flushed delicate cream.

White Maman Cochet (T.S.).—White, flushed cream at base of petals; medium size; ideal for garden and bedding.

William Orr (H.T.).—Deep velvety crimson, with a delightful sheen.

DWARF POLYANTHA ROSES

Polyanthus, or bunch-flowered roses, deserve attention. In most gardens featuring roses some of the climbing polyanthus varieties, such as "Dorothy Perkins" and the like, are included; but more prominence might be given to the varieties known as the Dwarf Polyantha, or, as some call them, poly-poms. These little gems were originated by crossing the climbing Polyanthus with the tea rose, and some most desirable varieties have resulted. "Cecile Brunner", a great favourite for bouquet-making, may be instanced. "Orleans" is another that has become popular; but the gem of them all is that recently introduced in "Goldlachs", or Golden Salmon, as it is also called.

The Dwarf Polyantha Roses are splendid for bedding or for bordering. In beds, groups of one colour, or mixed colours may be grown, but for bordering it is better to confine the planting to one variety, or at least to varieties of similar habit of growth. These roses provide a continuous display of bloom. They may be allowed to make fairly large bushes, or kept dwarfed by hand pruning, which, of course, is the best plan when they are grown as edgings.

Borderer.—Pink, shaded copper and amber; very free-flowering.

Cecile Brunner.—Blush, centre salmon pink. A favourite buttonhole rose.

Gloria Mundi.—The most startling outstanding novelty in the Polyantha class ever introduced. Its colour is a clear glowing orange; flowers fully double, and borne in clusters. Where a glorious border or massed bed is required, no rose can compete with this charming variety.

Golden Salmon (Goldlachs).—This dwarf Polyantha Rose, of recent introduction, is a gem among Polyantha Roses, and its colour, an intense fiery golden salmon, is quite unlike any other rose. The medium to large-sized flowers are produced in large full trusses, and its strong bushy growth of medium height makes it a delightful variety for massing in beds or borders.

Ellen Poulsen.—Dark brilliant pink; free flowering and very pretty.

Ideal.—Beautiful dark scarlet; said to be finest dark red Polyantha yet introduced. Fine for bedding.

Orleans Rose.—Brilliant rosy carmine, with white centre; semi-double. Fine for bedding, or for an edging. Always in flower.

Paul Crampel.—Deep orange scarlet.

Perle d'Or.—Nauken yellow, with orange centre. Small and full flower; fine for buttonholes.

Rufus.—Pure intense crimson; flowers double, produced on bold, upright trusses. Pure self colour, does not burn.

Tip Top.—Orange yellow, shaded carmine. One of the prettiest of the Polyantha class. Makes a fine rose edging. Always in bloom.

BEAUTIFUL CLIMBING ROSES

American Pillar (P.).—A fine rambler, giving clusters of single pink flowers.

Banksian Double White.

Banksian Double Yellow.

Both varieties are excellent for covering pergolas and the like.

Beauty of Glazenwood (Fortune's Yellow), (T.).—Yellow, shaded bronze.

Black Boy.—Deep crimson, shaded blackish maroon; sweet scented.

Climbing Belle Siebrecht (H.T.).—A vigorous form of the popular rosy pink rose.

Climbing Caroline Testout (H.T.).—Bright salmon pink, large and full.

Climbing Cecil Brunner (P.).—Delightful for buttonholes; blush, centre salmon pink.

Climbing Chateau De Clos Vougeot (H.T.).—The darkest crimson H.T. rose grown. Splendid.

Our Roses are Noted for their Beauty.

- Climbing Daily Mail Scented (H.T.).**—One of the deepest crimson roses, strong grower. Recommended.
- Climbing Dame Edith Helen (H.T.).**—Extra strong climbing sport from the well known variety. Recommended.
- Climbing Etoile de Hollande.**—A very fine bright red climber of great merit.
- Climbing General McArthur (H.T.).**—An excellent climbing sport of the popular sweet-scented crimson rose.
- Climbing Golden Emblem.**—This splendid climbing sport of the popular variety is a decided acquisition.
- Climbing Golden Ophelia (H.T.).**—A fine sport of the popular yellow rose; perfect flowers.
- Climbing Hadley (H.T.).**—An excellent sport of the popular fragrant crimson rose. Highly recommended.
- Climbing Hugo Roller (T.).**—A moderately vigorous climbing sport of the dwarf variety. Colour creamy yellow flowers, which are suffused or edged with crimson.
- Climbing Lady Hillingdon (T.).**—Free flowering, long buds; deep orange yellow.
- Climbing Lord Charlemont (H.T.).**—A strong climbing sport from the well-known variety; one of the best clear crimsons. Recommended.
- Climbing Loraine Lee (H.T.).**—Too much cannot be said of this very fine climber, and should be in every garden.
- Climbing Los Angeles.**—Flame pink, toned with coral; first class.
- Climbing Madame Butterfly.**—A beautiful sport of this well-known variety. Colour, a blending of bright pink, apricot, and gold.
- Climbing Madame Jules Grolez.**—A strong-growing sport of the popular satiny China rose.
- Climbing Madame Abel Chatenay (H.T.).**—The best pink climbing rose, a strong grower.
- Climbing Madame E. Herriot (H.T.).**—A strong climbing sport of the popular rose.
- Climbing Madame Segond Weber (H.T.).**—An excellent strong-growing sport of the beautiful rosy salmon rose.
- Climbing Maman Cochet (T.).**—Flesh coloured rose, shaded carmine and salmon-yellow.
- Climbing Mrs. Herbert Stevens (T.).**—A fine sport of the well-known white rose.
- Climbing Ophelia (H.T.).**—Salmon-shaded rose, perfect blooms; vigorous grower.
- Climbing Radiance (H.T.).**—Carmine pink blooms in profusion; sweetly scented.
- Climbing Red Radiance (H.T.).**—Cerise red; excellent under artificial light; fine in autumn and winter.
- Climbing Rose Marie (H.T.).**—A decided acquisition; rose pink; long, perfect buds; growth vigorous and clean; highly recommended.
- Climbing Shot Silk (H.T.).**—Another climbing sport of excellent quality, both in growth and flower.
- Climbing Sunburst (H.T.).**—A valuable addition to the climbers; rich orange yellow.
- Climbing Sunstar.**—Deep orange and yellow, veined and splashed crimson and vermillion.
- Climbing Talisman (H.T.).**—A climbing sport of the very popular dwarf variety. As in the dwarf form, scarlet, pink, copper, and gold are all to be found in the glorious shadings. Extra strong growth, and highly recommended.
- Climbing White Maman Cochet (T.).**—A vigorous climbing sport of the popular rose.
- Cloth of Gold (N.).**—Pale sulphur yellow, deeper centre; large and full; fine in warm districts.
- Countess of Stradbroke.**—This new, vigorous growing, free-blooming rose, raised by Mr. Alister Clark, gives large, full flowers of a rich dark velvety crimson; sweetly perfumed.
- Dorothy Perkins (W.).**—A splendid shell pink cluster rose; strong habit and good foliage.
- Emily Gray (W.).**—The finest yellow climbing Wichuriana rose yet introduced.
- Fortuniana (Banksia).**—Pure white (the Bridal Rose); foliage fine for covering.
- Hiawatha (W.).**—Fine vivid glowing crimson single flowers, with white eye, produced in long trailing bunches.
- Jessie Clark.**—A vigorous climber, producing large, single, pink flowers.
- Kitty Kininmonth (H.T.).**—A brilliant climber; bright carmine rose; huge flowers, splendid foliage.
- Lady Gay (W.).**—Flowers in rich rose-coloured clusters; glossy green foliage.

Lady Waterlow (H.T.).—Pale salmon, edged with carmine; large semi-double; one of the best climbers.

Macartney Grandiflora (T.).—Large single white flowers; beautiful foliage.

Miss Marion Manifold (H.T.).—A vigorous climber; rich velvety crimson; a free and continuous bloomer; fine for arches, pergolas, etc.

Nora Cunningham (H.T.).—Semi-double, cyclamen-pink rose; white zone at base.

Paul's Scarlet Climber (Hybrid Wichuriana).—Vivid scarlet, shaded crimson; the finest colour of its kind; does not burn in the sun.

Princess of Orange (Climbing Polyanthus).—This is a climbing form of the popular Gloria Mundi. A very pretty climber of outstanding colour, being glowing orange, and double. We highly recommend this variety.

Sinica Anemone (Mac.).—A beautiful light silvery pink rose.

Souvenir de Leonie Viennot (T.).—One of the most beautiful climbers; silvery rose, shading to carmine; base of petals canary yellow.

FRUIT TREES

BRIEF NOTES ON PLANTING.

Preparation of the soil some time before planting gives best result. Digging all over the plot where it is intended to grow trees is far better than taking out holes here and there, which, if the subsoil is stiff and clayey, are likely to become water-logged in winter.

Remove the surface soil to a fair depth, and then break up the lower soil with a pick until a depth of from 14 to 18 inches in all is loosened. Into the lower soil some well-decayed manure, say, three or four good shovelful, and a sprinkling of bonedust may be well worked, but no manure must come into direct contact with the roots of the tree at planting.

It is always advisable to place a stake to each tree, to which the main stem should be tied. Fix the stake before planting the tree. The distance between each tree should be not less than 16 feet; 20 feet between each tree would be better. The soil marks showing on the tree as it comes from the nursery should be a guide to the depth to which it should be planted.

Firmly tread the soil around the roots at planting time, and give each tree a liberal watering.

Our stock of Fruit Trees this season are exceptionally strong, well-shaped, and rooted. Intending purchasers should inspect the Nurseries, Lockleys, and see for themselves the fine lot of trees available.

PRICES.—Apples, Apricots, Almonds, Figs, Nectarines, Peaches, Pears, Plums, Prunes, and Quinces, 1/9 each, 18/- per dozen assorted, £6 per 100. Ten or more of a sort, £5 per 100.

APPLES

Beauty of Bath.—Fruit medium size, roundish, beautifully striped and spotted with crimson in the sun; flesh yellowing, with a rich, spicy flavour. Summer.

Buncombe.—Medium Size. Regular bearer; dessert. Late.

Cleopatra.—Medium to large, oblong to conical; skin clear yellow; flesh whitish, juicy, and rich; good dessert quality.

Cox's Orange Pippin.—Very handsome; medium size, good export apples; grand dessert of excellent flavour. Does well in special district.

Delicious (Syn. Chicago).—Dark red fruit, strong, vigorous grower; great cropper, and bears regularly and early.

Dunn's.—Fruit large, clear waxen yellow, with brownish red cheek; a good, solid, late-keeping cooking apple; also useful for dessert. Largely grown for export. Winter.

Emperor Alexander.—Good cooking; fair dessert. Early Autumn.

Five Crown (London Pippin).—Fruit medium size, skin greenish yellow with brownish red cheek; good cooking or dessert. Does well in the cooler parts of the State.

Granny Smith.—A large and juicy apple of a greenish yellow colour, late, heavy bearer, and highly esteemed for export.

Gravenstein.—Large, roundish, rather flat; skin pale yellow, streaked red on sunny side.

Irish Peach.—Medium size, roundish, rather flat and angular at the crown; skin yellowish green, streaked and spotted with brownish red.

Jonathan.—An apple of great excellence; fruit medium size, roundish, conical, skin clear light yellow, almost covered with bright rich red, dark red where fully exposed; of fine dessert quality; an early bearer. Excellent for market or export. Winter.

King David.—Colour dark red, with yellowish flesh; said to ripen before Jonathan. Tree hardy, vigorous grower; good cropper. Medium.

Ribstone Pippin.—Medium size, greenish yellow, clouded with dull red on the sunny side; flesh yellow, with a rich aromatic flavour. Late autumn.

Rokewood.—Heavy yielder, and one of the best keepers; good colour. Late.

Rome Beauty.—Fruit large and handsome; skin yellow, shaded and striped with bright red; flesh yellowish, tender, and juicy. A remarkably handsome fruit of good dessert quality; good exporter. Winter.

Statesman.—Fruit large, bright golden, striped and shaded crimson; a good keeper; very prolific. Winter.

Stone Pippin.—Fruit large, greenish yellow tinted with dull red; a very solid and late-keeping variety; kitchen. Winter.

Tasma (Democrat).—A dark red all over; prolific bearer, good flavour, splendid keeper; dessert. Very late.

Yates.—Good colour, trees very prolific; handsome dessert; requires plenty of moisture. Winter.

APRICOTS

Moorpark (Temple's).—Fruit large; skin yellowish green; brownish red on the sunny side; flesh bright orange, parts freely from the stone; the most popular variety for market, canning, or drying. End of December and early January.

Newcastle Early.—Medium size, rich golden yellow with a red cheek; a regular bearer, ripening before "Oullin's"; requires to be heavily thinned. End of November.

Cullin's Early.—A very heavy bearer. First week in December.

Riverside.—Fruit large, roundish oval, of best quality. Middle December.

Royal.—Medium, roundish oval; strong grower, and most prolific; largely grown for drying. Medium.

Tilton.—Fruit very large, rich apricot colour. Late.

ALMONDS

Brandis.—The tree is a strong, upright grower; nuts large and sweet; soft shell.

Californian Paper Shell.—Tree of spreading habit, strong grower, a heavy and regular bearer of the paper shell type; one of the best.

Chellaston.—Tree extremely hardy, and great bearer; recommended as one of the best.

Hatch's Nonpareil.—A very fine almond, large kernel, and a very thin shell; the shell of this almond is the thinnest we know of, thus losing very little weight after being shelled.

I.X.L.—A good variety; large nuts, perfect shell. Shy bearer in some places.

Jordan True.—A spreading variety, bears large nuts. Hard shell.

Johnson's Prolific.—We recommend this variety as the best commercial Almond in existence. It is a Softshell, a constant and heavy bearer, giving good nuts of excellent flavour.

Ne Plus Ultra.—Tree a rapid grower, and leaves are large. Produces nuts in bunches. Nuts large and long; fine flavour.

Paper Shell.—Very good; easily broken between the fingers.

Peerless.—It is without any doubt the prettiest dessert almond, being very smooth and well shaped; large, and of fine flavour; shell easily broken between the fingers.

White Nonpareil.—The tree is a strong grower, of spreading habit; nuts large; white shell; a far heavier bearer than the "Brandis".

CHERRIES

Price, 2/- each; 21/- dozen.

Bedford's Prolific.—Large, handsome, black, fine market sort. Medium.

Bigarreau Napoleon.—Large, bright red colour, firm; good for canning. Late.

Bigarreau Twyford.—Pale yellow and red; first-class quality. Early.

Black Bohemian.—A large black cherry, first-class for market. Medium.

Early Lyons.—Very early; black.

Florence.—Large, bright red, carries well; one of the most popular varieties. Late.

Knight's Early Black.—Richly flavoured, large, heavy bearer. Early.

St. Margaret.—Very large, black, flesh firm; very valuable.

Werder's Early Black.—Large, black, fine flavour; heavy cropper.

FIGS

Black Ischia.—Large, sweet, and rich; skin deep purple.

Grosse Verte.—Green; very large; rich and excellent. One of the best. Late.

Smyrna.—The large drying fig of commerce; a splendid variety for growing in company with the Capri Fig. The Capri Fig should carry the wasp for purposes of cross fertilization to ensure the setting of the Smyrna Figs.

Turkey.—Large, fine flavour; brown, with red flesh.

White Provence (White Genoa Sugar Fig).—One of the best. Ripe at Christmas.

LOQUATS

3/6 each.

Chatsworth Victory.—Fruit very large, with thick flesh; ripens late, and is of a very superior quality; the tree is a strong grower and good bearer, and is undoubtedly one of the best.

Enornity.—The largest and finest loquat grown; very large fruit and good cropper.

Herd's Mammoth.—Fruit nearly as large as "Chatsworth Victory", but ripening a little earlier; both varieties produce magnificent fruit if given good cultivation.

MULBERRIES

Black English.—Makes a very fine tree for shade; the fruit also is useful for dessert or cooking. 3/6 each.

NECTARINES

Early Rivers.—Fruit very large; skin light yellow, marked with red in the shade, rich crimson in the sun. Early.

Goldmine.—Fruit very large, roundish oval; colour bright bronzy red; a valuable late nectarine; ripening just before Stanwick. Late. The best all-round variety.

Irrewarra.—Above medium; good colouring; nice flavour. Very early.

Lee's Seedling.—Fruit large and brilliantly coloured; very rich flavour; commences to bear very early, and is one of the best.

Mrs. Dr. Chisholm.—A medium-sized, high-coloured nectarine; very early, ripening with "Cardinal".

New Boy.—Fruit large, skin creamy white, almost covered with brilliant crimson; flesh white, juicy, and sugary, and good flavour. One of the best. Medium to late.

Rivers' Cardinal.—Fruit good, medium size, brilliant colour, exquisite distinct flavour; the best early nectarine, ripens from ten to fourteen days before "Early Rivers". Very early.

Stanwick.—Large, nicely flavoured. Late.

PEACHES

Anzac.—Ripens before Hale's Early. A first class, highly coloured market variety of recent introduction. An acquisition to our Peach list. End December.

Brigg's Red May.—Fruit large when well grown; skin whitish green in the shade; deep red in the sun; flesh tender, juicy, and rich; one of the very best early varieties. Very early.

Early Crawford.—Very large, oblong; skin rich golden yellow, with deep red cheek; flesh yellow. Middle January.

Write plainly when Ordering.

Elberta.—Fruit very large; skin a fine yellow, highly coloured with rich red; flesh firm, very fine-grained, with an abundance of rich juice; undoubtedly one of the best and most profitable in cultivation for market purposes. End January.

Finlayson's Seedling.—Fruit large, almost round, well coloured, and of first quality. Ripens with "Sea Eagle", and is one of the best late peaches. End of February.

Hale's Early.—Fruit large, round; skin greenish white, nearly covered with dark rich red; flesh creamy white, juicy, melting, and well-flavoured; a valuable peach, ripening just after the first early varieties. End of December.

High's Early Canada.—Fruit large; skin yellowish white, with broken stripes and markings of crimson; flesh tender, rich, and melting; one of the handsomest and best of the very early varieties. December 10 to 20.

J. H. Hale ("The Million Dollar Peach").—Larger than Elberta; round uniform shape. Colour, rich golden yellow, overlaid with carmine. Flesh solid. Ripens five to seven days ahead of Elberta.

Lady Palmerston.—Medium to large, globular; skin greenish yellow, marbled, and flushed with deep red; flesh yellow, tender, and juicy, it never fails to bear a crop, and is one of the best for market, canning, or drying. February 20 to March 6.

Late Red Italian Cling.—Fruit large and almost round, greenish skin, with a dark red cheek. Tree is a strong bearer.

Louis Grognet.—Fruit very large; skin cream colour, with dark red cheek, often marked with red; flesh white, very melting and juicy; ripens just after "Hale's Early" and before "Mountain Rose".

Mountain Rose.—Fruit large, skin whitish yellow in the shade, but covered with bright, rich red where exposed; flesh tender, melting, and rich; this is one of the best mid-season peaches. Second week in January.

Peregrine.—Hardy and productive mid-season variety; large and handsome fruit; richly flavoured, and parting readily from the stone.

Phillips' Cling.—Fine large yellow cling; the fruit is ideal for canning.

Pullars' Cling.—A very large, highly coloured clingstone peach, and pre-

ferred by canning factories. It is a good grower and heavy bearer.

Royal George.—Medium to large; skin pale yellowish white, almost covered with red in the sun; flesh tender, melting, and juicy; a well-known mid-season variety, and one of the best for home use. Middle or end of January.

Ruby Red.—Large; skin creamy white, almost covered with brilliant red; flesh white, very juice, and melting. Cling.

Salway.—Medium size; juicy, fine flavour; yellow. Very late.

Sea Eagle.—Fruit large; skin pale yellow, with a bright red cheek where exposed; a very heavy bearer and good market variety. Middle to end of February.

Sneed.—Fruit medium size, oval; skin creamy white, with a delicate red cheek; ripens about ten days before "Red May".

Triumph.—The earliest yellow flesh peach known; fruit large, round, almost covered with deep red; a valuable variety, ripening immediately after "Red May"; tree a strong, healthy grower, and prolific. Third week in December.

Tuscan's Cling.—The earliest fine cling variety, ripening with "Early Crawford"; very large yellow fruit.

Wiggins.—An early freestone of large size, and most highly coloured, ripening just after the first early sorts have finished; tree very hardy and prolific; valuable for market or home use. End of December.

A Peach Ripening Calendar

Time of Ripening in Ordinary Seasons of some well-known varieties.

Dec. 1—	Sneed.
Dec. 10—	High's Early Canada.
Dec. 10—	Briggs' Red May.
Dec. 14—	Triumph.
Dec. 26—	Wiggins.
Dec. 26—	Anzac.
Jan. 1—	Hale's Early.
Jan. 3—	Ruby Red.
Jan. 5—	Louis Grognet.
Jan. 14—	Mountain Rose.
Jan. 15—	Surecrop.
Jan. 18—	Royal George.
Jan. 20—	Peregrine.
Jan. 23—	Early Crawford.
Jan. 23—	Tuscan's Cling.
Jan. 25—	J. H. Hale.
Jan. 30—	Elberta.

Jan. 30—Elberta (Willow-leaved).
 Feb. 16—Sea Eagle.
 Feb. 16—Paragrove.
 Feb. 16—Finlayson's Seedling.
 Feb. 18—Lady Palmerston.
 Mar. 18—Salway.
 Apr. 5—Red Italian.

By reference to this list customers will be able to order and plant varieties to give fruit over a lengthy period.

DOUBLE-FLOWERING PEACHES

2/- each.

Crimson.—Flowers very bright crimson.
Pink.—Bright pink colour.
White.—Flowers pure white.
Mellor Park Crimson.—Extra early, flowering early in July.

PERSIMMONS

3/6 each.

The fruit of the Persimmon, when ripe, is of a deep reddish orange colour; shape like that of an orange. The flavour when perfectly ripe is most luscious. It is best kept for a time after being picked, and is then most delicious. The fruit ripens during winter, and is in consequence valuable for the table at a season when fruit is scarce. Leading sorts available.

PLUMS AND PRUNES

Angelina Burdett.—Fruit above medium, roundish, dark purple, rich, juicy, and good for market or drying; the tree is a strong grower, and matured trees bear heavily. Early.
Coe's Golden Drop.—Large, oval, yellow, juicy, rich, and excellent; good drying, preserving, or dessert. Late.
Diamond.—Fruit very large, oval, skin black, covered with blue bloom, flesh yellow; a good preserving variety; tree a very heavy bearer. Mid-season.
Early Orleans.—Medium size, roundish oval, skin dark red, purple in the sun; good dessert or preserving; a first-class market variety. Early.
Egg Plum.—Fruit very large, oval; skin yellow, covered with thin, white bloom; good cooking or preserving; a constant and heavy bearer. Late.
Grand Duke.—Fruit large, oval, deep purple, flesh yellow, firm, very rich and juicy; a very heavy cropper, and one of the best late plums known.

Greengage.—Fruit medium size, round, skin greenish yellow when fully ripe; one of the best-flavoured dessert plums known. January.

Jefferson.—Fruit largest size, oval; skin yellow, with reddish cheeks where exposed to the sun; one of the most desirable of all dessert plums, and one of the best for preserving or drying. February.

Kirk's.—A first-class variety, large and black. Medium.

Prune d'Agen.—Large purple; heavy bearer; the best prune grown. Medium.

Prune Felleberg (Italian).—Another good drying and preserving prune. Medium.

Prune, Splendour.—Fruit very large and sugary; a freestone; tree very productive, and a healthy and vigorous grower; ripens early for a prune.

Prune, Sugar.—Tree very vigorous and productive; fruit extremely large, tender, rich, and very juicy; very early. Nearly 24 per cent. sugar.

Prune, Tragedy.—Very large, purple; one of the finest early prunes.

Robe de Sargeant.—Medium size, rich, and delicious.

Rivers' Early Prolific.—Below medium, purple, very prolific; excellent preserving, good dessert; tree a very heavy bearer. December.

Red Cherry (American).—An early variety; small fruit. Good breakwind.

DAMSONS

Cole's Prolific.—Good size for a damson; good quality and heavy bearer.

Damson, King of the Damsons.—Tree very productive; fruit large and good. Medium.

English.—Small, round, purple, good preserving; the tree is an enormous bearer, and the fruit will hang for weeks after it is ripe.

Farleight Prolific.—Fruit large, rounded, enormous bearer.

JAPANESE PLUMS

Burbank.—Fruit large, round, red, with a lilac bloom, flesh yellow, very juicy, flavour excellent, tree strong grower and enormous cropper; one of the best Japanese; ripe early January.

Climax.—The fruit is heart-shaped, larger than "Burbank", very highly coloured, and is ripe about a week before that variety. Early to medium.

Kelsey.—A very large yellow and bright red plum; juicy and rich, very small stone; one of the best for canning and drying; carries well, heavy bearer.

Rubio.—Very large, oval; crimson skin, very firm and fine quality flesh; strong grower and regular bearer. First-class Blood Plum.

Santa Rosa.—Fruit very large and purplish crimson in colour; another excellent Blood Plum, and Al for desert; good strong grower.

Satsuma (Blood Plum).—Fruit large, round, dark red to the stone, which is small; ripens towards end of February, and will keep for a fortnight after being gathered.

Wickson.—Fruit glowing carmine, with heavy white bloom, stone small, flesh of fine texture, sugary, and delicious; will keep for two weeks or more after ripening.

Wright's Early.—Fruit resembles "Burbank" in size and appearance, but ripens much earlier; like "Burbank", it is an enormous bearer, and at present is the best early Japanese plum known.

PEARS

Clapp's Favourite.—One of the best early varieties; before "Williams' Bon Chretien".

Duchess.—(See Williams' Bon Chretien).

Glou Morceau.—Large pear, yellow skin; flesh is buttery, melting, and very juicy; excellent dessert variety; good for export.

Howell.—Fruit large, light waxen yellow; heavy bearer, following "Williams' Bon Chretien"; a first-class market pear, and should be largely grown.

Josephine de Malines.—Medium size, roundish, oblong, skin greenish yellow, flesh very juicy, melting, and richly flavoured; a good bearer and long keeper. Winter.

Keiffer's.—A first-class variety, medium size, pineapple flavour, strong grower, very prolific; second best for canning. Late.

Packham's Triumph.—Raised by Mr. Packham, Molong, New South Wales; beautiful shape, large, good flavour; early and good cropper; ripe in April; good shipper. One of the best.

Williams' Bon Chretien (Bartlett).—Commonly called "Duchess" in this State; fruit large, skin clear yellow, sometimes tinged red; flesh melting, buttery, with a powerful musky aroma; the best of its season. Early.

QUINCES

Champion.—A splendid American variety; fruit very large, flesh tender; the latest keeping variety.

Missouri Mammoth.—Extra large fruit of excellent flavour; sturdy grower; prolific and early.

Master's Early.—Fruit large and good, roundish, skin golden yellow. A very handsome quince.

Pineapple.—Fruit medium size, clear golden yellow; makes a superior jelly, and is said to cook as tender in five minutes as the best cooking apple; possessing a most exquisite and delicious flavour.

Smyrna.—The tree is a rapid, strong grower, and immensely prolific; commences to bear the second year from the bud; the fruit is very large and of a lovely yellow-lemon colour, presenting a fine appearance; the flesh when cooked, is very tender, having a delicious flavour. Ripens in April, and will keep till September.

CITRUS FRUITS

From 4/- each, 42/- dozen; per hundred on application.

Our Citrus Trees are all strong and healthy, which when carefully balled, transplant without risk. As Citrus Trees have really no dormant period they require a little more care and attention when young than most trees.

MANDARINS

Beauty of Glen Retreat.—Very handsome; good flavour very productive tree.

Emperor.—Largest of fruit, very juicy; an excellent market kind. Good bearer. Particularly good.

Thorny.—An enormous cropper of medium size; juicy and sweet flavoured.

Dancy's.—Medium size, flat, almost scarlet; excellent quality; vigorous grower.

Canton.—Large and prolific; fine flavour.

Nobilis.—Medium size, flat, solid. Good.

ORANGES

Ruby Blood.—High quality of flavour; pulp a deep red when ripe.

Compuda.—Large, oval-shaped fruit, of first-class quality; a regular and consistent bearer.

Mediterranean Sweet.—Medium to large; oval, nearly seedless, thin skin, excellent flavour; ripens late, begins to bear early; requires protection from cold winds.

St. Michael.—Large, thin-skinned fruit, very few seeds; good bearer.

Valencia Late.—Medium in size, round, skin smooth and thin. It does not ripen until late in spring, and it is valued on that account.

Valencia Late Improved (Special Berri variety).—A vast improvement on the old variety, "Valencia Late". It has a thin skin, few pips, and fine flavour; does not revert to the green stage, nor does it become puffy through hanging on the tree. Fruit is of superior quality, and it can be marketed to end of March. Price, 5/- each.

Washington Navel.—Fruit very large, seedless, pulp juicy and well flavoured; strong grower and good bearer.

CITRUS

Bengal Citron.—Very large fruit, used for candied peel. 5/- each.

Cumquat.—Small, round, bright fruits; used mainly for ornamental trees. 5/- each.

Pomelaw (Grape Fruit).—Marsh's Seedless.—Fruit medium sized, with thin skin, practically seedless. 4/- each.

Lemon Lisbon.—The best variety for general use. 4/- each; 42/- dozen.

Seedless Lisbon Lemon.—A fine variety, seedless and good flavour. 5/- each.

Poorman.—Fine large fruit, used for marmalade and candied peel. 4/- each.

VINES

Extra Strong Plants, 9d. each;
7/6 dozen.

Black Frontignac.—Very rich vinous flavour; small; early.

Black Hamburg.—Thin skin, rich and juicy.

Black Prince.—Very fine oval, black; rich, juicy, and sugary.

Black Muscat (Mrs. Pince's).—Bunches large, tapering berries, medium, oval, skin purplish-black. Late.

Crystal.—Bunch large, berries medium to large, skin white; one of the best. Medium.

Doradilla.—Bunch large and closely set, berries medium to large, amber; a tremendous bearer and a good late packing grape.

Grand Turk.—Large bunches, berries black; ripens soon after mid-season, but will keep for a considerable time on the vine if kept dry.

Gros Colman.—Bunches very large; berries large and round, skin dark purple or black, flesh juicy and sweet.

Lady's Finger.—Bunches medium to large; loose berries, long and tapering at both ends; skins greenish, becoming quite pink when ripe. Late.

Malaga (Black).—Bunch large, berries medium oval; skin tough, hangs late and carries well.

Malaga (Red).—Bunch large, berries large, roundish oval, skin red or reddish-purple when fully ripe.

Muscat Gordo Blanco (Muscatel).—Bunch large, berries large, pale amber; a good bearer and the best for drying.

Muscat Hamburg.—Berries medium, oval, dark reddish purple, becoming black when fully ripe.

Red Muscat (Woods).—This is a sport from the well-known "Muscat Gordo Blanco", but the berries are of a beautiful red colour.

Red Prince.—Bunches very large, berries large, round, of a deep red colour, becoming almost purple when fully ripe; flesh sweet, firm, and of fairly good flavour. Medium to late.

Sultana.—Bunches medium size and long, berries oval; skin pale yellow; flesh without seeds. Valuable for home use when dried.

Sweetwater.—Bunches medium size, berries round, greenish white; an old favourite. Early.

Waltham Cross.—Bunches very large, long, and tapering, skin pale amber, flesh firm and solid, with a brisk, pleasant flavour; one of the largest grapes in cultivation; good market or packing.

White Frontignac.—Very rich, fine flavour; straw colour.

Wortley Hall.—Bunch and berry very large, berries round, black; generally bears a heavy second crop, which are useful for making jelly.

Zante Currant.—This is the Currant of Commerce, and is being extensively planted in this State for drying purposes; black, juicy, and sweet berries.

All the Vines this season are remarkably strong, well-rooted plants. Those who are wanting quantities should inspect our plants before ordering elsewhere.

MISCELLANEOUS FRUITS

Bananas.—3/6 each. Special plants, 5/- each.

Blackberries.—9d. each; 7/6 dozen.

Cape Gooseberry.—9d. each; 7/6 dozen. Seedlings, in Spring, 1/- dozen.

Currants (Red, Black, and White).—1/- each; 10/- dozen.

Chestnuts (Spanish).—3/6 each.

Gooseberries.—Leading varieties, 9d. each; 7/6 dozen.

Guava (Purple).—1/6 each.

Loganberry.—1/- each; 10/- dozen. Stronger, in pots, 1/6 each; 15/- dozen.

Passion Fruit.—1/- each; 9/- dozen.

Mammoth, 1/6; Banana, 1/6 each.

Persimmon.—3/6 each.

Pomegranate.—2/6 each.

Strawberry (Gandy, Melba).—9d. dozen; 5/- 100. Illawarra, 1/6 dozen, 10/- 100. New Giant, 1/6 dozen; 10/- 100.

Walnuts.—From 3/6 each.

Walnut (Wilson's Wonder).—The best soft-shell walnut, crops well. 7/6 each.

CULINARY ROOTS, PLANTS, ETC.

Asparagus.—Conover's Colossal, 2/6 dozen; 15/- 100.

Cabbage Plants.—6d. bundle; or 1/6 per 100.

Cauliflower Plants.—6d. bundle or 1/6 per 100. Greenleaf, 6d. bundle or 1/6 per 100.

Herbs.—Thyme, Sage, Mint, 1/- each.

Lettuce Plants.—6d. bundle, 1/6 per 100.

Onion Plants.—6d. per 100. 4/- per 1,000.

Red Beet.—6d. bundle; 1/6 per 100.

Rhubarb Roots.—9d. each; 7/6 per doz. Mould's Crimson, 1/6 each.

Silver Beet.—6d. bundle; 1/6 per 100.

Tomato Plants.—Lassecocks Special Early Dwarf Red, 6d. dozen; 3/6 100; 30/- 1,000. Lassecocks Wonder, 1/- dozen. Other varieties, 9d. dozen, 4/- 100.

HARDY ORNAMENTAL TREES AND SHRUBS

This section represents a great variety of plants suitable for almost any kind of horticultural ornamentation. The heights given are approximate to ultimate growth, but vary according to soil and situation. They can all be kept within bounds by careful pruning, which we recommend being done just after flowering. We shall at all times be pleased to recommend varieties for any special purpose, and when large numbers are wanted will make special offers.

E. signifies Evergreen. D. signifies Deciduous.

		Height in feet.	Price.
E.	Abelia rupestris. —Rose and white	3	1 6

„ torquata .—A graceful and charming gum that gives salmon-pink blossoms on slender growths. Commences to flower in October and remains in bloom for some time	15	1	6

PLANT SHADE TREES ON THE FARM.

Many farms in Australia are practically treeless. Trees should be a prominent feature on all farms to add to the appearance, beautify the homestead, and to afford shade for the stock. Tree planting may be undertaken on the outskirts of the area and in corners of paddocks.

To afford an effective shelter for stock the trees should not be over-tall. Close planting will bring this about. Trees put in close will supply excellent straight timber for posts, but the foliage required as a breakwind will be furnished at too high an altitude to be effective. Sugar Gums to provide effective shelter for stock should be planted at least 30 feet apart, and Aleppo pines 30 to 33 feet. Closer planting is, of course, recommended for timber purposes. We can supply the right trees for all districts at reasonable rates.

	„ <i>capensis alba</i> .—Pure white; very handsome; summer flowering	5	1 6
E.	<i>Podalyria grandiflora</i> .—Pink	6	2 6
	„ <i>Sericea</i> (The Satin Bush).—Silver foliage, pink flowers	4	2 0
D.	<i>Poinsettia pulcherrima</i> .—A glorious shrub producing enormous bracts of brilliant scarlet	6	1 6

Only Healthy Plants are included in any Order.

		Height in feet.	Price.
E.	<i>Polygala grandis</i> .—Large purple; fine, beautiful free-flowering, with pea-shaped flowers	6	2 6
D.	<i>Poinciana Gilliesii</i> (Bird of Paradise Flower).—A hardy de- ciduous shrub with attractive Acacia-like foliage; flowers yellow with long red stamens	6	2 0
E.	<i>Primelea decussata</i> .—Rose	2	1 6
E.	<i>Psidium Cattleianum</i> (Purple Guava).—Edible fruit	8	1 6
	" <i>aromaticum</i> (Yellow Guava).—Beautiful coloured foliage in autumn	6	1 6
D.	<i>Populus alba</i> (White Poplar).—From 2/6	40	
	" <i>Bolleana</i> (Silver Poplar).—From 2/6	40	
	" <i>dilatata</i> (Upright Poplar).—From 2/6	50	
	<i>Protea mellifera</i> (Sugar Bush).—Handsome flowering shrub	—	2 6
D.	<i>Prunus Elreiana</i> .—Flowers double, bright rose	6	2 0
	" <i>Moseri</i> .—Dark crimson purple foliage similar to D. Pissardi, but it gives double rosy pink blossom	12	2 0
	" <i>Mume</i> .—A most beautiful double-flowering plum, com- mencing to flower in June and continuing until September. The blossoms have a delicious frag- rance. Red, white, pink	4	2 0
	" <i>Pissardi</i> .—Remarkably ornamental; splendid deep crimson-purple foliage and fruit; very beautiful in spring and autumn	15	2 0
	" <i>sinensis alba</i> .—Double white	4	2 0
	" <i>sinensis rosea</i> .—Double rose. These two are beautiful small-growing shrubs that produce quantities of double flowers in spring	4	2 0
	" <i>Triloba</i> .—Double rose; very pretty	—	2 0
	" <i>Vesuvius</i> .—An improved variety of Pissardi	15	2 0
	<i>Psoralea pinnata</i> .—Quick growing shrub, masses of Jacaranda- blue flowers in spring	5	2 6
D.	<i>Punica Granatum</i> (Pomegranate)	15	2 0
	" <i>Granatum fl. pl.</i> —Double scarlet	6	2 0
D.	<i>Pyrus-Malus</i> (Flowering Crab Apple) <i>floribunda purpurea</i> is one of the most distinct of the flowering crabs. Bronzed foliage, purple-rose flowers, and purplish-crimson fruit	—	2 6
	" <i>spectabilis</i> .—Large semi-double rose coloured flowers in dense masses; scarlet fruit	—	2 6
	" <i>Japonica</i> .—See Cydonia.		
E.	<i>Rhaphiolepis ovata</i> .—Large handsome leaves and pretty flow- ers	5	2 0
E.	<i>Rhododendron</i> .—Hybrid varieties; named. From 3/6	8	
D.	<i>Rhus succedanea</i> .—Beautiful crimson foliage in autumn	10	2 6
D.	<i>Ribes sanguineum</i> (Flowering Currant).—Crimson	6	2 0
D.	<i>Robinia pseudo-acacia</i> .—White	30	2 0
	" <i>hispidula</i> .—Rose pink	10	2 0
E.	<i>Romneya Trichacalyx</i> (Californian Poppy).—A great improve- ment on Coulteri. Bushy habit; flowers very much larger, blooms six inches across; very much hardier, and highly recommended	—	3 6
E.	<i>Rosemarinus officinalis</i> (Rosemary)	3	1 0
E.	<i>Russelia juncea</i> (Scarlet Spray).—Beautiful shrub with rush- like foliage. The bright scarlet tubular flowers are produced throughout the year	4	1 6
D.	<i>Salix rubra</i> (Pussy Willow).—Producing in early spring the showy catkins which are valued for cutting	—	1 6

Leave the Choice of Varieties to us—you will be Satisfied.

		Height in feet.	Price.
E.	<i>Salvia Betheli</i> .—Rosy crimson, tipped white	3	2 0
	„ <i>Grahami</i> .—Rosy purple	3	1 6
	„ <i>Involucrata</i> .—Bright red	3	2 0
	„ <i>Farinacea</i> .—Blue, excellent	3	1 0
	<i>Scarlet-flowering Gum</i> .—See <i>Eucalyptus</i> .		
	<i>Sesbania trepeti</i> .—A magnificent flowering shrub, sending out graceful fronds of foliage almost in the manner of a tree fern, having soft mimosa-like foliage, and from all along the branches hang long, graceful bunches of racemes of orange-scarlet or tango coloured flowers. It is a perennial and will flower six months from seed. Seed 1/6 packet		
		—	2 0
	<i>Snowball Tree</i> .—See <i>Viburnum Opulus</i> .		
E.	<i>Solanum azureum</i> .—Bright blue	3	2 0
E.	<i>Sparmannia Africana</i> .—Double white; winter flowering	10	2 0
E.	<i>Spartium junceum</i> (Spanish Broom).—Yellow	10	1 6
E.	<i>Sphæralcea umbellata</i> .—Large, attractive foliage and abutilon-like flowers, produced in upright trusses	8	2 0
D.	<i>Spiraea Anthony Waterer</i> .—Bright rose. From 1/6	1½	1 6
	„ <i>corymbosa</i> (May).—White; single	4	1 6
	„ <i>Douglasi</i> .—Double pink	6	1 6
	„ <i>grandiflora</i> (Exochorda).—Large white	6	1 6
	„ <i>Reevesiana</i> .—Double white	4	1 6
E.	<i>Statice Caspia</i> .—Long feathery spikes of pale mauve flowers	—	1 6
	„ <i>Dicksoni</i> (Everlasting).—Pink	2	2 0
	„ <i>macrophylla</i> (Everlasting).—Blue and white	2	1 6
	„ <i>perezii multiflora</i> .—One of the finest <i>Statice</i> ; large heads; blue	2	1 6
E.	<i>Stenocarpus Cunninghami</i> .—Hardy evergreen tree. Curious scarlet flowers rayed like the spokes of a wheel	12	2 6
E.	<i>Sterculia acerifolia</i> (Flame Tree).—Bright crimson	50	2 0
	„ <i>heterophylla</i> (Kurrajong).—White	40	1 6
E.	<i>Strelitzia Reginae</i> .—Orange and blue. Immense leaves and curious flowers of striking beauty. Nearly always in flower. From 3/6 each	6	
E.	<i>Swainsonia alba</i> .—White	3	2 0
	„ <i>rosea</i> .—Large pink	3	2 0
D.	<i>Symphoricarpos racemosus</i> (Snowberry).—Rosy-pink flowers; white berries	4	2 0
E.	<i>Sugar Gum</i> .—See <i>Eucalyptus</i> .		
D.	<i>Syringa vulgaris</i> (English Lilac)	10	1 6
	„ <i>vulgaris alba</i> .—White	10	1 6
D.	<i>Tamarix gallica</i> (Flowering Cypress, Tamarisk).—White and pink. From 2/-	12	
D.	<i>Tamarix Japonica</i> .—Beautiful pink, flowers before foliage appears. From 2/-	12	
	<i>Tecomas</i> .—Hardy, profuse-flowering shrubs, producing trusses of trumpet-shaped flowers.		
E.	<i>Tecoma capensis</i> .—Orange scarlet	10	1 6
D.	„ <i>grandiflora</i> .—Largest orange	6	2 6
D.	„ <i>Guilfoyei</i> .—Orange-red	6	2 6
E.	„ <i>Mackeni</i> .—Delicate rose-pink, with darker veins; very handsome	6	2 0
D.	„ <i>Madame Galen</i> .—Dark red	6	2 6
E.	„ <i>rosea</i> .—Immense racemes of rosy lilac flowers	6	2 0
E.	„ <i>Smithii</i> .—Orange; a favourite shrub	8	2 0
E.	„ <i>velutina</i> .—Yellow; a favourite shrub	8	2 0
E.	<i>Templetonia retusa</i> (Coral Bush).—Terra-cotta crimson. A handsome winter-flowering shrub	4	2 0

	Height in feet.	Price.
D. <i>Thalictrum dipterocarpum</i> (Lavender Shower Plant)	4	1 0
Tree Tomato.—See <i>Cyphomandra Betacea</i> .		
E. <i>Toxicophloeæ spectabilis</i> .—White, handsome foliage, flowers sweetly scented	8	2 0
Veronicas are hardy evergreen dwarf shrubs, flowering profusely in winter and spring; of rapid growth and thriving in any soil or situation.		
E. <i>Veronica Andersoni</i> .—Blue	3	1 6
„ <i>Andersoni Variegata</i> .—Blue	3	1 6
„ <i>Imperialis</i> .—Brilliant amaranth-red	3	1 6
„ <i>Variabilis</i> .—Rose, handsome, free-flowering	3	1 6
„ <i>Lindleyana</i> .—White	4	1 6
„ <i>Parviflora</i> .—White	3	1 6
D. <i>Viburnum opulus</i> (Guelder Rose, Snowball Tree).—Flowers in large corymbs; white	8	2 0
E. <i>Virgilia capensis</i> .—Purple and White pea-shaped flowers. Very pretty foliage	—	2 6
D. <i>Weigela rosea</i> .—Beautiful spring flowering; requires shaded position on plains	4	2 0
E. <i>Wormwood</i> .—Silvery foliage	6	1 6
E. <i>Yellow Broom</i> .—See <i>Spartium Junceum</i> .		

TREES FOR SCHOOL GARDENS, PARKS, AND RECREATION GROUNDS

We are prepared to supply Committees with a choice selection of Trees and Shrubs suitable for local requirements at specially reduced rates.

Write us for particulars and special quotations.

BEAUTIFUL PLANTS FOR FETES AND BAZAARS

Our collection of Plants suitable for Fetes, etc., give the greatest satisfaction and sell readily. When selection is left to us we will send the best possible selling lines in season, and supply at a most liberal discount. Special care is given in packing to ensure safe transit.

HARDY CLIMBING PLANTS

E. signifies Evergreen. D. signifies Deciduous.

	Price.
D. <i>Ampelopsis Henryana</i> .—Velvety green, with silvery white midrib and veins; distinct	2 0
„ <i>hederacea</i>	2 0
„ <i>Veitchi</i> (Virginian Creeper).—Small-leaved and self-cling- ing creeper. This grows on the front of the Exhibition Building	1 6
„ <i>Veitchi Purpurea</i> .—Darker green than <i>Veitchi</i> , changing to dark red in autumn	2 0
<i>Antigonon leptopus</i> .—One of the prettiest climbers imaginable, producing large sprays of beautiful pink flowers in the summer	2 6
E. <i>Asparagus plumosus Nanus</i> .—Feathery foliage	1 6
„ <i>sprengeri</i>	1 6
<i>Bignonia</i> .—The <i>Bignonias</i> are hardy, vigorous growers, with attractive trumpet-shaped flowers, produced mostly in summer.	

Address all Correspondence to Lockleys, S.A.

		Price.
E.	<i>Bignonia australis</i> .—Whitish. A rapid-growing climber with good foliage	2 0
"	<i>capreolata</i> .—Reddish yellow	2 0
"	<i>Chirere</i> .—Reddish orange; vigorous; fine	2 6
"	<i>gracilis</i> .—Beautiful, large, yellow, small foliage	2 0
D.	<i>grandiflora</i> .—Large orange flowers; very showy	2 6
D.	<i>Guilfoyei</i> .—Dark red	2 6
"	<i>jasminoides</i> .—White with purple throat	2 0
"	<i>jasminoides alba</i> .—White	2 0
"	<i>Lindleyana</i> .—Lilac stained with purple; very handsome	2 0
"	<i>Mackeni</i> .—A splendid variety. Large trusses of pale pink flowers with deeper veinings	2 0
D.	<i>Madame Galen</i> .—Similar to <i>Grandiflora</i> in habit, but with wine-red flowers	2 6
"	<i>rosea</i> .—Long trusses of pale mauve-pink flowers	2 0
"	<i>venusta</i> .—Orange; flowers July, August, September	2 0
Bougainvilleas are evergreen, strong, vigorous climbers, very free-flowering, and most attractive. They thrive best in well drained, sunny positions.		
E.	<i>Bougainvillea cypheri</i> .—Mauve	2 0
"	<i>laterita</i> .—Terra-cotta. This variety gives brick-red bracts. Very fine	3 6
"	<i>magnifica Trailli</i> .—Deep magenta	2 0
"	<i>Mrs. Butt</i> .—This is without doubt the gem of the Bougainvilleas. The glorious crimson flowers are produced in the greatest profusion. Free climbing habit and good foliage	3 6
"	<i>sanderiana</i> .—Magenta	2 0
"	<i>splendens</i> .—Deep magenta	2 0
"	<i>splendens variegata</i> .—Foliage beautifully splashed creamy white	2 6
"	<i>Thomasii</i> .—A beautiful new Bougainvillea of soft rose-pink colour; fine, strong grower. Being a new colour in Bougainvillea and quite distinct, it is sure to become very popular	3 6
D.	<i>Clematis Montana Buchani</i> .—White; very free-flowering	2 0
D.	<i>Montana rubens</i> .—Mauve-pink	3 6
E.	<i>Coboea scandens</i> .—Purple bell-shaped flowers	2 0
E.	<i>Dolichos Lignosus</i> .—Pink pea-shaped flowers	2 0
"	<i>lignosus albus</i> .—White	2 0
E.	<i>Ficus stipulata</i> (Climbing Fig).—Good foliage, adheres to walls, etc., similar to Ivy	2 0
<i>Fuchsia Procumbens</i> .—A good plant for hanging baskets or rockeries. Yellow flowers, reflexed blue; large crimson berries		
E.	<i>Golden Glory Creeper</i> .—See <i>Thunbergia Gibsoni</i> .	
E.	<i>Hardenbergia ovata rosea</i> .—Rose	1 6
"	<i>monophylla</i> (Native Lilac)	1 6
"	<i>monophylla alba</i> .—White	1 6
E.	<i>Hedera Helix</i> (English Ivy)	2 0
"	<i>Japonica Variegata</i> (Silver Variegated)	2 0
E.	<i>Hoya Carnosa</i> (Waxflower).—Flesh colour	2 6
E.	<i>Ipomœa Leari</i> .—Very rapid growing, producing an abundance of intensely bright blue convolvulus-shaped flowers	2 0
E.	<i>Jasminum primulinum</i> .—Light bright yellow flowers; extra fine	2 0
"	(Jasmine) <i>grandiflorum</i> .—Large white	2 0
E.	<i>Kennedya nigricans</i> .—Black and yellow	2 0
"	<i>pentaphylla</i> .—Violet blue	2 0
"	<i>rubicunda</i> .—Red	2 0
E.	<i>Lathyrus Pubescens</i> (the Blue Argentine Pea)—Blue, pretty	2 0
"	<i>latifolius alba</i> (Everlasting Pea).—White	2 0
"	<i>latifolius rosea</i> (Everlasting Pea).—Pink	2 0

	Price.
E. <i>Lonicera Aurea Reticulata</i> .—White and yellow. Handsome variegated foliage	2 0
" <i>Caprifolium</i> (English Honeysuckle).—Pink	2 0
" <i>Confusa</i> .—Pale yellow; fine	2 0
(The Honeysuckles are very suitable for verandah posts or covering fences.)	
E. <i>Lophospermum scandens</i> .—Deep rose pink	1 6
<i>Lotus peliorhyncus</i> .—Scarlet pea-shaped flowers, similar to Sturt Pea, glaucous foliage; splendid for rockeries	1 6
D. <i>Mandevilla Suaveolens</i> .—White, beautifully scented	2 0
E. <i>Passiflora coerulea</i> (Passion Flower)	2 0
" <i>Constance Elliott</i> .—Pure ivory white; profuse	2 0
" <i>edulis</i> (Passion Fruit)	1 0
" <i>Imperatrice Eugenie</i> .—Blue and white; large	2 0
" <i>Mammoth</i> .—The fruit is the same colour as the well-known <i>edulis</i> , but twice the size, and is a much stronger grower; very productive	1 6
D. <i>Phaseolus Caracalla</i> (the Snail Creeper).—Queer twisted flowers of a lavender shade	2 0
E. <i>Rhynchospermum jasminoides</i> .—White, sweet scented	2 0
D. <i>Solanum Wendlandi</i> .—Large trusses of pale blue flowers. One of the most beautiful climbers in cultivation. Requires a warm situation	2 0
D. " <i>Seaforthianum</i> .—Deep blue	2 6
E. <i>Stephanotis Floribunda</i> (Elvaston Variety).—A beautiful climber; dark green leaves, and fragrant, pure white blossoms	2 6
E. <i>Stigmaphyllon ciliatum</i> (Orchid Vine).—Yellow-fringed handsome flowers	2 6
E. <i>Tacsonia Exoniensis</i> .—Rosy pink, long tube; evergreen	2 0
" <i>Manicata</i> (Scarlet Passion Flower)	2 0
" <i>Mollissima</i> .—Magenta, long tube	2 0
" <i>Taylori</i> (Banana Passion Fruit).—Pale pink, flushed purple	1 6
<i>Tecomas</i> .—See <i>Bignonias</i> .	
E. <i>Thunbergia Gibsoni</i> (Golden Glory Creeper).—Rich orange; a beautiful creeper; good foliage, flowers freely	2 0
D. <i>Vitis Alicante Bouchet</i> (Crimson Glory Vine).—Crimson autumn foliage	1 6
D. <i>Wistaria Sinensis</i> .—Lavender	2 0
" <i>alba</i> .—White in drooping racemes	2 6
" <i>Multijuga</i> .—Long racemes of lavender flowers	3 6
" <i>Sinensis fl. pl.</i> .—Double lavender	3 6

PALMS

- Chamærops excelsa* (Windmill or Fan Palm).—Well shaped growth, very hardy. From 2/6 each.
- Chamærops humilis*.—Dwarf habit, good shape. From 2/6.
- Corypha australis*.—Very hardy, fan-shaped leaves. From 2/6.
- Cotton Palms.—From 2/6.
- Kentia Balmcreana*.—Very graceful, largely used for table decoration. From 1/6 each.
- Kentia Fosteriana*.—Tall, elegant palm; the best of all palms for table or indoor decoration. From 1/6 each.
- Phoenix reclinata*.—Hardy, dark green feathery foliage. From 2/6.

Phoenix Canariensis.—Very handsome dark green leaves, similar to the Date Palm, but more graceful; one of the best palms for outside planting. From 2/6 each.

Phoenix Roebelini.—A charming palm for indoor decoration. From 5/- each.

HEDGE PLANTS

Carob (Ceratonia Siliqua).—This makes a magnificent evergreen hedge, and is very hardy. Plant 4 to 5 ft. apart. 2/- each; 20/- dozen.

Ceanothus divaricatus.—When well clipped this makes one of the most ornamental hedges. It bears large quantities of blue flowers, which make

Cover that Fence with a Climber.

it very effective. Plant 3 ft. apart. In pots, 20/- per dozen.

Coprosma Lucida.—Makes one of the handsomest hedges, its bright leaves being always shining green, not holding the dust; quickgrowing and hardy. Strong plants, in pots, 10/- per dozen; 70/- per 100. Open roots out of seed beds, 4/- dozen, 25/- 100. Plants in pots are strongly recommended, as twelve months can be saved.

Cupressus Torulosa.—A very pretty, compact growing plant that makes an ideal hedge where space is limited, and also for dwarf heights than that given by *Lambertiana Horizontalis*. It requires less trimming, and is well recommended. Strong plants, 5-inch pots, 3/- each; 30/- dozen.

Cupressus Lambertiana Horizontalis.—One of the most beautiful hedges in cultivation. It is very hardy, and immune from disease. The main stem (or leader) of each plant should be tied to a stake when planting, and allowed to grow to within six inches of the ultimate height of the hedge before it is clipped. Plant 4 to 5 ft. apart. The general planting size has been those in 5-inch pots, at 35/- dozen.

Cupressus Lambertiana Horizontalis Aurea.—A beautiful golden variety. Fine plants, 3/6 each. Special extra sized plants, in 6-inch pots, 5/- each.

Cupressus Macrocarpa.—Makes a very good, compact hedge. Price, from 12/- dozen; extra strong, 1/6 each; 15/- dozen. Larger plants, in 5-inch pots, at 2/6 each; 25/- dozen.

Diosma alba.—Makes an excellent dwarf hedge. Plant 2 feet apart. In pots, 15/- dozen.

Diosma pulchrum.—This makes an ideal dwarf hedge; rose pink flowers, light green foliage. Plant 2 feet apart. In pots, 20/- dozen.

Duranta Plumieri.—A neat-growing evergreen plant, bearing clusters of purplish blue flowers. From 12/- dozen; extra strong, 15/- dozen.

Duranta Ellisii.—This particular variety of *Duranta* is specially recommended. It is a remarkably quick grower if

given right soil conditions and attention to watering, and is free from thorns. *Duranta Ellisii* is one of the finest shrubs in cultivation. From 12/- dozen; extra strong plants, 15/- dozen.

Kaffir Apple.—3/6 dozen, 25/- per 100.

Laurustinus.—Very useful for a small hedge. Plant 2 ft. apart. 1/6 each; 15/- dozen.

Lonicera nitida makes an ideal dwarf hedge; small box-like foliage, borne on dense twiggy growth; stands clipping well. Plant 2 ft. apart. 15/- dozen.

Mycoporum insulare (Native Myrtle).—This makes a splendid hedge, quick growing, and clean. Does well near the sea. Plant 3 ft. apart. 15/- dozen.

Plumbago Capensis.—This makes a very showy and pretty flowering hedge, blue flowers; also can be had in white. Plant 2 ft. apart. 1/6 each; 15/- dozen.

Privet.—Evergreen; open rooted, 20/- 100; 3/6 dozen.

Privet—Golden Variegated Privet.—This most beautiful Privet, with its fine richly variegated gold foliage, makes a most striking and handsome hedge; it is dense in habit of growth, and it does not die out. The plants remain wonderfully healthy. Plant 2 ft. apart. Plants in pots, 1/6 each; 15/- per dozen.

Rosemarinus (Rosemary).—From cuttings, 3/6 dozen; well rooted, 25/- per 100.

Spartium Junceum (Yellow Broom).—Will make a fine ornamental hedge if kept well trimmed. In pots, 15/- per dozen.

Tagasaste (Tree Lucerne).—3/6 dozen; 25/- per 100.

Tecoma Capensis.—A fine red flower-hedge, very hardy. 1/6 each; 15/- dozen.

Wormwood (*Artemesia*).—A nice silvery foliage, very useful for shelter for poultry. 1/6 each; 15/- dozen.

GROW TREES FOR TIMBER

It is generally recognised that vegetation has a great influence over rainfall. for that reason the planting of trees in quantity on farms and stations should be considered. Apart from the question of rainfall, the growing of trees for timber should be undertaken, particularly in the light of threatened timber shortage.

Tree planting should be made in wide belts and in compact blocks rather than in single rows along fences, because when closely planted they grow straighter, and better timber is obtained. Plant closely and afterwards thin out the trees to obtain posts and other useful timber.

Sugar Gums, Tootart Gums, Red Gums, Tasmanian Blue Gums and others are useful, as are also the Pines: *Halepensis* (Aleppo Pine) and *Insignis* (The Remarkable Pine).

We can supply these and others in large lots at specially reduced rates. Get Lasscock's quotations.

CONIFERAE

	Height in feet.	Price.
<i>Araucaria excelsa</i> (Norfolk Island Pine).—From 2/6	100	
<i>Biota Aurea</i> .—A small class of pine; compact growth. From 3/6 ..	6	
<i>Cedrus Atlantica Glauca</i> .—A magnificent variety. From 5/-		5 0

" <i>Plumosa</i> (plum-like Cypress)	10	2 6
" <i>Squarrosa</i> (scaly-leaves Cypress)	—	2 6

Prices for Pines per 100 on application.

We have large specimens of most Coniferae in Tubs and Pots from 5/- upwards.

MODERN HYDRANGEAS

Lasscock's are famed for these new Hydrangeas. We specialise in these plants, and grow them by the thousands. A visit to our Nurseries when plants are in flower will convince you that we have the very best of varieties, both in formation and colouring. Second rate and inferior kinds are discarded. From 2/- each.

Goliath.—A tall grower, strong wood; large flower heads of rose-pink.

Elmar.—Flowers carmine red, dwarf habit.

Parsival.—Good free flowering variety. Flowers deep red; good truss.

La Marne.—A good strong grower, enormous head of flowers; rose-pink.

Deutschland.—A grand variety of good, robust habit; very deep pink flowers.

All Classes of Artificial Manures in Stock.

Demotci.—A wonderful variety, enormous heads of pink flowers.

Gertrude Glahn.—Immense heads of pink flowers; good grower.

Neidersachen.—Very free flowering rose-pink; good truss.

Peer Gynt.—Deep rosy-red flowers; strong grower; should be in every collection.

F. Mathes.—A distinct colour of salmon rose; strong grower.

FERNS

The hardy varieties of *Adiantums* (maiden-hair ferns), *Pteris*, *Nephrolepis*, *Cyrtomium*, etc., we grow in thousands. Prices, from 1/- each.

We shall be pleased to advise intending purchasers as to varieties best suited to their requirements. We have a large collection of the best varieties suitable for table decoration, ferneries, rockeries, and shadehouses.

Adiantum Farleyense.—The most magnificent of this handsome family. From 3/6.

Adiantum Scutum.—Bold and handsome fronds. From 2/6.

Adiantum Williamsi.—Slightly golden; tall, erect habit. From 1/6.

Adiantum (Maidenhair Fern).—

„ **elegans.**—Best for cutting; from 1/6 each.

„ **Gracillimum.**—Very graceful; 1/6.

„ **nebulosum.**—Very fine fronds.

„ **Pubescens.**—Pretty and useful; 1/-.

Asplenium bulbiferum.—A hardy, strong growing fern, very suitable for room or verandah; from 1/-.

Asplenium nidus (Bird's nest fern).—Very hardy, with long, broad shining green fronds. From 1/6.

Cyrtomium Rochfordii (Holly Fern).—Foliage bright, glossy green, serrated, very hardy; a great improvement on *falcatum*.

Dicksonia antarctica (Tree Fern).—We have splendid specimen plants of this tree fern; very suitable for verandah; from 3/6 each.

Nephrolepis cordata (Sword Fern).—This well known hardy fern is well adapted for verandahs, rooms, or growing in baskets; from 1/-.

Nephrolepis Hodginsonii.—A magnificent fern of recent introduction, long arching, very graceful fronds, splendid for pots or baskets, and hardy enough

to withstand the weather out of doors if planted in a shady and moist situation. We consider this one of the finest introductions among our hardy ferns, a most fascinating fern and a splendid specimen for show purposes; will become a general favourite. From 2/6.

Nephrolepis Rooseveltii.—A plain leaved variety with long heavy fronds, beautifully waved and crimped; make a fine decorative fern; from 2/-.

Nephrolepis Todeoides.—Massive tri-pinnate fronds like ostrich feather; 2/-.

Platyserium alaicorne (Elk's Horn).—
„ **grande** (Stag's Horn).—

We have a fine collection of these Ferns, suitable for verandah, bush house, and shady situation; from 3/6.

Polystichum triangulare.—Extremely hardy, very suitable for shady rockeries; 1/6.

Polystichum Wrightii (new Lace Fern).—A magnificent fern for the shade-house or indoor decoration, quite distinct from the varieties of *Polystichum* in cultivation; from 1/6.

Pteris argyrea.—Silver variegated, fronds erect; from 2/-.

Pteris cretica alba lineata.—White and green variegated; 1/-.

Pteris Hendersonii.—A beautiful fern suitable for house decoration; from 1/-.

Pteris Major.—Tall, graceful fronds; thrives in rooms; 1/6.

Pteris tremula.—A pretty fern of free growth; 1/-.

Pteris Wimsettii.—Beautifully crested fronds; fine for house use; from 1/6.

FLOWERING BULBS, TUBERS, and ROOTS

Agapanthus umbellatus.—Blue. 1/- each.

Agapanthus albus.—White. 1/- each.

Alstroemeria (Peruvian Lily).—1/- each.

Amaryllis belladonna (Belladonna Lily).—Deep rose. 1/- each.

FLOWER SEEDS

Our Flower Seeds are imported direct from the leading seed growers of the world, and being in constant touch with the suppliers, we are able to secure all the worth-while varieties available.

We can supply the following in 3d. and 6d. Packets, except where price is otherwise specified.

AGERATUM:

Dwarf Blue.—Very pretty border plant.

Mauve Beauty.

ALYSSUM:

A splendid dwarf plant for borders, rock work, etc.

Carpet of Snow.—Compact dwarf habit, growing about two inches high; quite a white mass when in full bloom.

Lilac Queen.—Fine new variety. Pure lilac flowers, dwarf and compact. 6d. packet.

AMARANTHUS:

Tricolour splendens.—Very rich foliage plant, scarlet, yellow, green, etc.

ANEMONE:

Very showy spring-flowering bulbous plant, easily grown from seed, which will flower the first season.

Improved St. Brigid.—A great advance on all other St. Brigid. Anemones. 6d. packet.

ANTIRRHINUM (Snapdragon):

Splendid bedding plants, flowering practically all the year. They are very hardy and easy to grow, and include a wonderful range of colourings.

ANTIRRHINUM NANUM:

(Intermediate):

Black Prince.—Dark crimson.

Bonfire.—Orange and flame.

Coccinea.—Fine orange-scarlet.

Crimson King.—Beautiful rich crimson.

Flame.—Brilliant orange-scarlet.

Fascination.—Deep flesh-pink.

Golden Queen.—Fine golden-yellow. Splendid varieties mixed.

ANTIRRHINUM MAJESTIC:

This strain has become exceedingly popular and is the best type of Antirrhinum grown, producing very large flowers on fine, strong stalks. All 6d. packet.

Avalanche.—Pure white.

Dawn o' Day.—Pale rose-pink, changing to apricot.

Daydream.—Soft rosy-pink, shading to yellow.

Delight.—Delicate salmon-pink, shading to apricot.

Eldorado.—Deep, golden-yellow.

Fair Lady.—Delicate flesh-pink, shading to rose.

Golden Dawn.—Golden-buff, overlaid salmon.

Orange King.—Terra-cotta, golden-yellow lip, merging to deep orange.

Red Chief.—Rich deep crimson-scarlet.

Rosella.—A most beautiful rich, glowing rose, one of the best.

Rose Marie.—Light salmon-rose, golden centre.

Sunset.—Bright terra-cotta, shading to rosy-salmon.

Twilight.—Delicate apricot, old gold centre, and salmon shading.

Choicest Mixed.—Including all varieties.

AQUILEGIA:

These hardy plants will do well anywhere. The long-spurred hybrids are exceedingly beautiful and charming for use as cut flowers.

Long-spurred Hybrids.—Choice flowers, mixed colours.

Mrs. Scott Elliott's Strain.—Delicate shades in fine mixture.

ASCLEPIAS:

Curassavica.—Handsome Lantana-like flower of scarlet.

ASTER:

These beautiful free-flowering annuals require plenty of water and will thrive in any ordinary garden soil. Colours are particularly attractive, and the blooms are excellent for cut flower use. Sow in succession.

Giant Crego.—Graceful bushes, bearing handsome Chrysanthemum-like flowers on long stems. The best variety for general cultivation, and can be obtained in following separate colours: Crimson, dark blue, dark red, lavender, pink, purple, and white.

Giant Crego Mixed.—All colours.

BALSAM:

Choicest Double Camellia-flowered, mixed.

Write plainly when Ordering.
